Maestro		3	3	2	iPhone iPod Touch	\$1.99	Portrait and Landscape	+.072925	The only metronome to show conducting patterns, runs slightly fast. iPad version available for purchase.
Metron		1	2	4	iPhone iPod Touch	\$1.99	Portrait and Landscape	+.003498	Can be programmed for various tempos in a piece. One of the most accurate metronomes tested.
Metronome		2	2	1	iPhone iPod Touch	\$0.00	Portrait	+.328865	A free metronome that functions much like Metronome Pro, but without the additional features. Can be difficult to set a tempo; as you remove your finger, the tempo can change accidentally.
Metronome Pro		4	3	2	iPhone iPod Touch	\$1.99	Portrait	+.003973	My favorite metronome to use because of its "old school" visual metronome.
Subdivide Metronome		4	3	2	iPhone iPod Touch iPad (All iOS)	\$4.99	Portrait	+.00360	An attractive metronome with the intent to replace a DB-90 or other expensive metronome.
